

Commonwealth of Massachusetts

Municipalities with Pay-As-You-Throw Programs

Prepared by:

Massachusetts Department of Environmental Protection

Bureau of Waste Prevention

January, 2005

KEY

Pay-As-You-Throw (PAYT) programs

Program Attribute	Description	Types
<i>Annual Charge Type</i>	Method which a municipality uses to charge residents in combination with the PAYT unit fee.	<ul style="list-style-type: none"> Flat = uniform annual fee per resident. Property = solid waste costs covered as a portion of the local property tax. Both = municipality charges flat AND property fee to cover solid waste costs. Unit = PAYT or unit fee covers complete cost of local solid waste program.
<i>Type of Container</i>	Kind of container(s) or method municipality allows for each unit of trash disposed	<ul style="list-style-type: none"> Bags = trash bags distributed by municipality for disposal of trash. Stickers = adhesive labels affixed to each container of trash disposed. Any Container = town allows a range of containers for disposal of trash. Supplied by the resident. Punch Card = resident purchases a set number of “units” that are used at local transfer station where trash is disposed.
<i>Rate System</i>	How municipality structures their solid waste costs for solid waste collection and disposal	<ul style="list-style-type: none"> <u>Proportional</u> (*) = each container of trash disposed is priced uniformly (30 gallon trash can costs \$1.00 the same as 30-gallon trash bag). <u>Variable</u> (*) = solid waste charges fluctuate for additional units of trash disposed (for example: first unit of trash disposed may cost \$1.50, but the second may be lower or higher -- \$1.00 or \$2.00). <u>Two-tiered</u> = proportional system combined with flat fee or property tax. <u>Multi-tiered</u> = variable system combined with flat fee or property tax.
(*) In both kinds of rate systems, NO flat fee or property tax is assessed for solid waste disposal by the municipality.		
<i>Flat Fee Charge</i>	Uniform annual fee charged to each resident or homeowner for solid waste service.	
<i>Price Option #1</i>	Unit fee charged for first unit of trash per maximum allowed volume.	
<i>Price Option #2</i>	Unit fee charged for <u>second unit</u> of trash per maximum allowed volume.	
<i>Basic Service</i>	A base level of trash collection provided to every household under a PAYT system.	

111 MASSACHUSETTS MUNICIPALITIES WITH UNIT-BASED PRICING

January, 2005
